(J)	Brief Description of the event (max. 200-300 words)
	<p>BVM engineering college under the guidance of CVM became the venue partner for the “Smart Gujarat for New India” Hackathon 2017-18. The DTE had divided the problem statements into various categories among which 7 categories were given to the BVM. The total participants team enrolled under the 7 department were 130 among them 70 team were present. The total number of students present at the venue were 442. The event was organized in the H-Block and Auditorium of BVM campus. For this event we had provided a total bandwidth of around 200 MBPS divided among the participants. Separate arrangements were made for students where they can work for Hackathon and the also separate rooms were allocated for girls and boys for rest. Guest house arrangements at CVM and SP university were made for the mentors & jury members and other officials. The necessary food arrangements were done for every person involved in the Hackathon. For power backup, Diesel Generator Setup was arranged. There were 40 faculty members and 70 students volunteer team constantly available at the venue for any sort of help. Rooms were also made available for the bathing facility at near hostels of CVM. Necessary care was taken for the jury members and Govt officials like waiting room, computer room, stationary, etc were available on the spot. Midnight cultural entertainment was also arranged for the relaxation of the participants</p>

(K)	Feedback/Success Stories of Students etc (max. 100 words)
	<p>The students appreciated the arrangements and supported at the BVM campus. They didn't face any problem for the internet facility, seating arrangement and resting. They praised the quality of the food. They rejoiced at the midnight entertainment arranged for them.</p>
