Patel (Owner , Satt Engg.), Prof. Nekzad Umrigar (Faculty Advisor) , Raj Ambani (General secretary) , Harshang Patel (Joint general secretary) and Mr. Zaran Patel (IEI students' chapter civil student chairman) to come on the dais.

Then brief introduction on Engineer's day was given by the anchors and then saraswati prayer was sung by 2 girls of 2nd year and the lightning of lamp was done by the dignitaries.

The program was followed by the introduction and felicitation of all the dignitaries on the dais with the bouquet of flowers and then they were requested to go off the dais to take their respective seats.

Then the audience was addressed by Andrew Sneddon on Skype video call who gave his knowledge in the piling industry as he has experience of over 30 years across the UK and Ireland and now working in Canada and North America.

After this Principal Dr. I.N. Patel mentioned about the facilities given to the students to uphold their interest in various fields and develop their knowledge on various topics of their branch and develop their personality.

Er. H.M. Patel

Er Snehal Patel

Then comes the speech of Er. H.M.Patel who is managing head of Dhorajiya construction and also bvm alumni and does placement from our college. He worked in a lot of projects constructed in Gujarat , one of those were sardar sarovar tamej tunnel project and he gave inspiration to all the students.

Due to some unavoidable reason Mr. Singhla , head of SP SINGHLA CONST. PVT. LTD. was not present in this workshop. Then follows the speech of Er. Snehal patel where he gave brief description about the workshop and tells the importance of attending technical seminars which helps us in improving our technical knowledge and gives inspiration to all the students by sharing his personal experience.

Lastly the vote of thanks was given by head of civil department Dr. L.B.Zala.

Finally, Er. Snehal Patel started his 1st session on pile foundation by providing all the slides of powerpoint presentation as a printout to all the students and he gave all the information related to the construction of pile and where it is used.

Then lunch break was given from 1pm to 2pm and then starts the 2nd session of the workshop which was related to the installation of the piles. And all the instruments and models were kept in auditorium so that the student can see and understand all the information provided by him.

At last there was a Query session where the students asked their doubts and got answers from Er. Snehal Patel and finally the signature of all the students were taken for “E-certificate” and at 4 pm the workshop was completed successfully.
