

## **POLICY FOR GREEN CAMPUS**

A Green Campus is a place where environmental friendly practices and education system jointly promote sustainable and eco-friendly ambiance in the campus. Birla Vishvakarma Mahavidyalaya Engineering College, an educational institution spread in 18.96 acres, is located at Vallabh Vidyanagar, Anand District, Gujarat, India. Vallabh Vidyanagar is known as education hub and has more than 80 species of trees planted on roadside. It has perhaps highest density of trees in the state of Gujarat.

Green Campus status is observed by adapting a policy regarding following themes:

- Paperless environment
- Energy conservation
- Eco-friendly environment
- Green campus & Biodiversity

A committee is constituted to implement and follow-up the green campus policy. The committee takes all the measures required to maintain a green campus.
