**An Autonomous Institution  
(Managed by Charutar Vidya Mandal)**

November 18th 2023, कार्तिक सूद पंचमी “लाभ पंचमी”,  
बिरला विश्वकर्मा महाविद्यालय,

**My Dear Students,**

Hope you all have celebrated & enjoyed Joyous Deepawali Festival with your beloved family & friends. **I on behalf of Birla Vishvakarma Mahavidyalaya family wish you a Happy, Healthy, Progressive & Prosperous New Year Vikram Samvat New Year 2080.**

I hope this letter finds you well, filled with the enthusiasm that comes with being on the cusp of a promising journey in the field of engineering-technology-management. As you embark on this path, I want to share some thoughts with you—words of motivation and encouragement that I hope will resonate with you throughout your academic and professional endeavours.

**Science, Engineering & Technology along with Management are not merely a course of learning & study; it's a journey of continuous learning, problem-solving, and innovation; which have been adopted by the developed countries mostly and presently imbibed in our New Education Policy-NEP2020.** You are not just students; you are the architects and builder of the futuristic development globally. Each equation you solve, every project you undertake, and the countless hours spent in the classroom, library, laboratory are building blocks for a sustainable and impactful career.

**Please do remember, the challenges you face in your academic pursuits are not hurdles but stepping stones. They are opportunities to refine your skills, test your resilience, and ultimately grow as an engineer stepping towards a sustainable career growth. As you navigate through complex problems, cultivate a mind-set that views obstacles as gateways to success. Embrace the difficulties, for they hold the keys to unlocking your true potential.**

Sustainable career growth is not just a buzzword; it's a guiding principle for a meaningful career. Your role in future as engineer, technocrat, academician, researcher, social-public-spiritual sectors extends beyond equations and blueprints; it involves shaping a world that is environmentally conscious and socially responsible. Consider the impact of your innovations on society, and strive for solutions that not only address technical challenges but also contribute to the well-being of our planet and its inhabitants.

The journey ahead may seem challenging at times, but **we the Team-BVM encourage you to stay true to your passion.** Let your curiosity be the compass that guides you, and let your love for problem-solving be the fuel that propels you forward. **You have chosen a field that demands creativity, resilience, and a relentless pursuit of knowledge. Embrace the joy of discovery and the thrill of creating something new.**

Along this journey, surround yourself with mentors and peers who inspire you. Engage and involve yourself in a creative-conducive-cooperative and a positive environment. **Collaboration is the cornerstone of innovation.** Seek out diverse perspectives, and learn from those who have walked this path before you. **Remember, you are not alone in this pursuit; you are part of a global community of thinkers-dreamers- doers. Keep yourself away from darkness & negativity and have a strong mind-set: “I CAN” because we believe that: “U CAN”.**

As you work towards your goals, prioritize your well-being. Success is not only measured by professional achievements but also by the balance you strike in life. Take moments to celebrate your victories, both big and small. Find joy in the learning process, and don't forget to appreciate the friendships, relations and experiences that enrich your futuristic journey.

**We the Team at BVM always think about your holistic development not merely as an industry ready graduate but equally a socially responsible citizen of developing भारत. Our vision to: “Produce Globally Employable Innovative Engineers with Core Values” is being addressed through a learned, experienced and committed team of professors and verities of student centric activities....wherever and whenever we feel lacking we will try our best to overcome the same for you and your career.**

In closing, I want you to believe in your capabilities and the incredible potential within you. Your journey as an engineering student is not just about acquiring knowledge; it's about becoming the leaders, inventors and innovators of tomorrow. **Your sustainable career growth is not just a goal; it's a testament to your dedication, resilience, and the positive impact you strive to make in the world.**

**Your cooperation for building the BVM for the Next Generation is highly appreciable and we believe you and you all together will raise the name and fame of Great Birla Vishvakarma Mahavidyalaya: An institution with a strong history, sustained legacy and add on success stories.** Your committed-commendable-constant positive initiative will surely fulfil your dreams, faith your parents-society have entrusted on you and will make our country a developed country in a very near future. **We too sought your strong involvement-engagement-intervention in each and every activity inside & outside classroom may be in form of curricular, co-curricular, extra-curricular or outreach activities which addresses our vision and your sustainable career.**

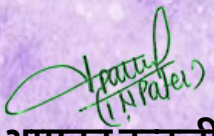

Thank you all for having faith in all of us at BVM Engineering College!!

आप सभी के उज्वल एवं प्रगतिशील भविष्य के लिए प्रभु चरणमें प्रार्थना.....

जय बी वी एम् !!

भारत माता की जय !!! वन्दे मातरम !!!

समस्त बिरला विश्वकर्मा महाविद्यालय परिवार के ओरसे,

  
आपका इन्द्रजीत पटेल
